

LIFE SCIENCE FORENSICS

**PARACEL** | TRUSTED.  
LABORATORIES LTD. | RESPONSIVE.  
RELIABLE.

# Emergency Response Services and Air Quality Monitoring

Life Science Forensics has the unique ability to monitor air and actually determine if there is a possibility of an adverse health effect. We also have the ability to help to quantify and identify challenging samples in a variety of different matrices. We are available day or night for on-site assistance and analysis.

# Emergency Response Services and Air Quality Monitoring

- Fencepost monitoring
- Ability to quantify low-level analytes in the field
- Ability to determine if air samples have the potential for an endocrine disrupting, mutagenic or neurotoxic effect.
- Ability to fingerprint complex samples in a variety of matrices.
- Our passion is to use science to help our clients solve their problems. Let us help today.
